## APPENDIX

### Compliance Status of Environmental Clearance

**Name of the Project:** Jesons Industries Limited - ( Unit V )

**Project Code :** SCL/UTR / Ind - 61 /2010

**Clearance letter No. :** SEIAA/EC-39/2010 /253 dt. 03.03.2010.

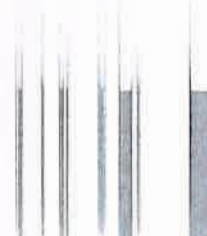

**Period of Compliance Report :** April.-2020 to Sep.-2020

**Location of the Project:** Plot No. 29 A & B, KIE Industrial Estate, Mundiyaiki,  
Pargana: Manglore, Tehsil Roorkee, Distt: Hardwar.

### **Product and Product-wise Production Capacity:**

Product	Production Capacity
<b>Unit V</b>	
Synthetic Adhesives	15 MT/Day
Glue & Adhesives	15 MT/Day
Construction Chemicals	15MT /Day
Polymers of Vinyl Acetate	} 80 MT/Day
Vinyl Co-Polymers	
Acrylic Polymers	

For Jesons Industries Ltd.  
  
Auth. Signatory

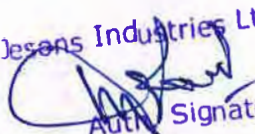

**Compliance Status of Environmental Clearance Conditions (Oct..2019 to March- 2020 ):**

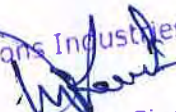

SN	Conditions	Compliance Status
<b>Specific Conditions</b>		
1	Water Requirement shall not exceed 0.5 KLD in Unit-IV and 32.5 KLD in Unit-V, which shall be sourced from the bore wells. Process wastewater generated from Unit V shall be taken to the appropriate capacity of the Effluent Treatment Plant (ETP), while domestic wastewater from both the Units shall be disposed through Septic tank/soak pits. No wastewater shall be discharged outside the premises and Zero discharge shall be strictly adhered to.	Unit IV Merge in Unit V and measures for water conservation and pollution control are in place. After Expansion Water requirement is 92.08 KLD, NOC of CGWA 28500 cu.m/year. CGWA NOC No. CGWA/NOC/IND/ORIG/2019/4796. The process wastewater is being treated in on-site ETP and domestic wastewater is being treated in STP. The treated wastewater is being recycled and reused in horticulture (In our Garden) purpose to ensure Zero discharge.
2	The ETP sludge shall be dried in sludge drying beds and used as shall be stored in pucca RCC Pits followed by disposal through authorized vendors.	ETP sludge dried in sludge bed and sent to Bharat oil waste Management limited - authorized by UEPPCB for Waste disposal.
3	Hazardous Chemicals shall be stored in Tanks in tank farms, drums, carboys etc. Flame arresters shall be provided in the tank farms. All safety measures should be adapted as per norms.	Flame arrestors are Provided to each tank in tank Farm and all Safety measures adopted as Per norms.
4	One-third of the Total Area of the project shall be developed as green belt with suitable species of plants as per CPCB Guidelines.	Green belt area is 12.5 % (812 Sq. Meter) developed in factory Premises and Additionally 37.4% (2430 Sq. Meter) adopted of Gram Sabha Land for Green Belt Development. So total green belt area is 49.9% (3242 Sq. Meter). MoU for green belt development and Photographs of the green belt are attached.
5	The Project Authority shall obtain the Consent to establish from State Pollution Control Board.	The Consent to establish & Consent to Operate from UEPPCB for the proposed units has been already obtained and CCA Validity Till 31.03.2021.

For Jisons Industries Ltd.  
  
 Auth. Signatory

SN	Conditions	Compliance Status
6	The project authority shall obtain the necessary permission/NOC from the respective regulatory authorities prior to operation of the unit.	Permission / NOC Obtained till March 2021 from UEPPCB
7	The Project authority shall obtain necessary permission from Central Ground Water Board for extraction of Groundwater.	No objection certificate for ground water abstraction has been already obtained from Central Ground water Authority. Copy of the same is attached.
8	The Project authority shall submit the compliance report of EC after every six months to the authority.	The Compliance report of EC is regularly submitted .
<b>General Conditions</b>		
1	The project authority shall strictly adhere to the stipulation made by UEPPCB	The Unit is complying the conditions of Environmental Pollution Control as Stipulated by UEPPCB and The Unit is committed to complying the same from Time to time.
2	No further modification or expansion shall be carried out without prior Approval of the competent authority. In case of deviations or alterations in the project proposal from those submitted to this authority for clearance	Further modification or expansion will be carried out prior Approval of the SEIAA/MoEF&CC.
3	At no time, the emission shall exceed the prescribed limits. In the event of failure of any Pollution control system adopted by the unit, the unit shall immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.	15 mtr. Stack Height is provided for the boiler and 12mtr. DG set stacks. Moreover, the fuel being LDO/FO and HSD respectively, test reports of Stack emission are attached as Annexure - .....

For Jesons Industries Ltd.  
  
 AUTH Signatory

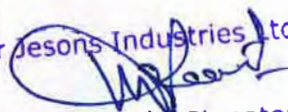

SN	Conditions	Compliance Status
4	The Gaseous Emissions (SO <sub>x</sub> , NO <sub>x</sub> , CO, VOC and HC) and particulate matter along with RSPM Levels from various process units shall conform to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards	CPCB standards is being strictly adhered to w.r.t of emissions and ambient air quality surrounding the plant.
5	The locations of Ambient air quality monitoring stations shall be reviewed in consultation with the UEPPCB and additional stations shall be installed, if required, in the downwind direction as well as maximum ground level concentrations are anticipated	Agreed and doing the Ambient Air Quality Monitoring in Near Cooling Tower, Opp. RM Storage Tank, Near Main Gate - down wind direction and other Work Zone Air. Latest Test Reports of Ambient Air Quality and Work Zone Monitoring area attached as Annexure -...
6	The Stacks of Appropriate heights as per Central Pollution Control Board guidelines shall be provided to control the emissions from various vents.	15 m stack height for boiler and 12 m stack height for DG Set as per CPCB Guidelines.
7	All liquid raw materials shall be stored tanks & drums. Closed handling systems for chemicals and solvents will be provided. Magnetic seals shall be provided for pumps/agitators for reactors for reduction of fugitive emissions. Solvent traps shall be installed wherever necessary. Reactor generating solvent vapors will be connected to condensers with receivers.	Adequate and safe Storage provisions for all the liquid raw material has been made. Raw Materials Storage in Tanks and Drums as per noms. Reactor vents are connect reflex condenser vent is dipped in water and water taken in back to the process. Process is operated in closed loop under atmosphere condition.

M/s Jeeons Industries Ltd.  
  
 Auth. Signatory

SN	Conditions	Compliance Status
8	<p>All venting equipments shall have vapour recovery system. All the pumps and other equipments where there is a likelihood of HC leakages shall be provided with leak detection and repair (LDAR) system and LEL indicators and hydrocarbon detectors. Provision for immediate isolation of such equipment in case of a leakage shall also be made. The company shall provide a well-defined leak detection and repair (LDAR) programme for quantification and control of Fugitive emissions. The detection sensitivity shall be in ppm levels</p>	<p>All the measures to for leak detection and repair will be taken as per the conditions laid in EC. Reactor vents are connect reflex condenser vent is dipped in water and water taken in back to the process. Process is operated in closed loop under atmosphere condition. There is no hydrocarbon emission in our process and procurer LEL Meter in Process.</p>
9	<p>The Company shall undertake following Waste minimization measures:</p> <ul style="list-style-type: none"> <li>• Metering and control of quantities of active ingredients to minimize waste.</li> <li>• Re-use of bye-products from the process as raw materials or as raw material substitute in other processes.</li> <li>• Use of automated filling to minimize spillage</li> <li>• Use of "Close Feed" system into batch reactors.</li> <li>• Venting equipment through vapor recovery system.</li> <li>• Use of High Pressure hoses for equipment cleaning to reduce wastewater generation.</li> </ul>	<p>Waste Minimization Measures are undertaken as mentioned below:</p> <ol style="list-style-type: none"> <li>1. Re use of Process Water into Each Batch cycle to minimize Waste Water treatment.</li> <li>2. Use of Closed Feed system in Batch Reactors implemented.</li> <li>3. Use of High Pressure Hoses for cleaning.</li> <li>4. Metered and control of active ingredients.</li> <li>5. RM Storage tank installed through vapor recovery system.</li> </ol>
10	<p>Fugitive emissions in the work zone environment, product and raw materials storage area shall be regularly monitored. The emission shall conform to the limits imposed by the UEPPCB / Central Pollution Board. Dust / Powder from the Formulation process shall be collected by dust extractor.</p>	<p>The fugitive emissions of organic chemicals and VOCs come from leakage through valves, fittings, pumps, etc. Jesons take the following measures to prevent any such leakages -</p> <ul style="list-style-type: none"> <li>• Gradient slope is provided for complete emptying.</li> <li>• Hoses is being regularly checked</li> </ul>

For Jesons Industries Ltd.

SN	Conditions	Compliance Status
		<p>and replaced.            Though this is not significant, adopting the following measures may reduce it further-            Regular maintenance of valves, pumps and other equipment should be done to prevent leakage and thus minimize the fugitive emissions of VOCs</p>
11	<p>The project authorities shall strictly comply with rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989 as amended in October, 1994 and January, 2000 and Hazardous Waste (Management and Handling) Rules, 1989 as amended from time to time. Authorization UEPPCB shall be obtained for collection, treatment, storage and disposal of Hazardous Waste. All Transportation of Hazardous Chemicals shall be as per MV Act, 1989.</p>	<p>All the guidelines of MSIHC regarding Hazardous waste Management is being complied. Authorization from UEPPCB already obtained for collection, Treatment, storage and Disposal of Hazardous Waste.</p>
12	<p>The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise level shall conform to the standards prescribed under Environment (Protection) Act, 1986 Rules, 1989 viz. 75 dB(A) (Day time and 70 dB(A) night time.</p>	<p>The selection of plant equipment has been made with specification of low noise levels. Noise suppression measures such as enclosures, buffers and/or protective measures has been provided (wherever noise level is more than 90 dB (A) and exposure limits to workers is more than 8 hours a day) to limit noise levels within occupational exposure limits. Areas with high noise levels has been identified and segregated where possible and include prominently displayed caution boards. However, in areas where noise levels are high and exposure time is less, employees has been provided with ear protection measures like earplugs or earmuffs. Earplug has been provided to all workers where exposure level is &gt; 85 dB(A). The exposure of employees working in the noisy area is</p>

For Jesons Industries Ltd.

SN	Conditions	Compliance Status
		being monitored regularly to ensure compliance with the regulatory requirements. Ambient Noise and Source Noise Test reports are attached as Annexure - .....
13	Occupational Health surveillance of the workers shall be carried out on a regular basis and record shall be maintained as per the factories act.	Unit is maintaining a healthy work environment. This has been accomplished through the identification, evaluation and control of workplace environmental factors, which may cause sickness, impaired health or significant discomfort and inefficiency among workers. Workers exposure to noise and toxic materials has been evaluated against applicable recognised exposure levels in the Factories Act.
14	The company shall harvest surface as well as rainwater from the rooftops of the buildings proposed in the expansion project and storm water drains to recharge the groundwater and use the same water for various activities of the project to conserve fresh water.	Rain water from the roof tops and paved area are collected in Storage tank and used the Storage water for various activities of the project to conserve fresh water.
15	The project authority shall also comply with all the environmental protection measures and safeguards proposed in the EIA/EMP report. All the recommendation made in respect of Environmental management and risk mitigation measures relating to the project shall be implemented	Agreed and all the measures of EMP will be strictly adhered to.
16	The company will undertake all relevant measures for improving the socio-economic conditions of the surrounding area. CSR activities will be undertaken by involving local villages and administration.	The company understand the need of CSR activities to improve the socio-economic condition of the Area. These activities has taken as per the company policy and directives of concerned authority in time to time. CSR activities already done through District administration. copy of the same is attached as Anenxure-
17	The company shall undertake eco-	Agreed and complied accordingly.

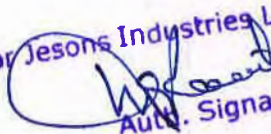

For Jesons Industries Ltd.
